Versions	Flag sign Wall sign Desk sign Ceiling sign
Colours	Nature White Black

Care instructions / irregularities for STIQ®

Cleaning: Vacuum with a soft brush. Avoid rubbing and scouring the surface. Our wooden signs are sawed and contain natural wood features such as knots, cracks, mirrors, etc. which are part of the characteristics of FORESTO ROUGH®. Knots and cracks are backed with black fleece. Due to the material properties, minimal thickness differences of the signs are not always avoidable.
